

COVID-19 Rules for Shotgun 6/21/2020 Update

GENERAL TRAP SHOOTING

The St. Joseph County Conservation and Sportsman's Club opened for practice trap shooting Sunday May 17 with shooting starting at 9am as usual. The Club will also be opened on Tuesday evenings at 6pm. There are several changes needed to accommodate the opening of trap and maintain the recommendations by the CDC and following MUCC guidelines regarding the current COVID-19 virus issue.

The clubhouse can be open to a maximum of 50 people, however with social distancing our feasible number would be less due to our space (approximately 20-25 people). The kitchen is still closed. The outside covered pavilion will be available for shooters use. Masks are strongly recommended while in the clubhouse. It is also recommended that you leave your gear in your vehicle and access it from there due to limited access by shooters in the clubhouse. Persons not of the same household must remain at least 6 feet apart from others while indoors or outdoors.

We will be using tickets rather than tokens for rounds of practice trap, sold in groups of 4 at normal prices per round of 25. Registration/sign up will be either through a window on the backside of the clubhouse (the porch area) behind Trap 3 or in the Clubhouse with the cashier behind a barrier. The outside sign-up line (if used) will be "one pass" with an entrance and exit as indicated.

Tickets for each round will be collected/deposited at the scoring chair at the trap house you are assigned to shoot at.

Bring your own hand sanitizer, sanitizing wipes, and masks for your personal use.

ATA SHOOTING

Additional information regarding registered ATA shoots during this COVID-19 declaration include the following. This may be updated prior to our next scheduled ATA shoot on **August 23**, so check back for updates prior to the shoot.

- Classification, Squadding, and Cashiering will be located at the front of the building facing the parking lot, through separate windows assigned for that purpose.
- Please bring your ATA card (or have your ATA number) and information including current yardage and any declared special category, available. We may ask you for your ATA number to minimize card handling.
- Kitchen is planned to be available. Kitchen food will be distributed through a clubhouse window facing Trap 3. There may be a limited menu. The soda pop vending machine will be available. Call for updates on the status of food availability (269-483-6803). You may, however, want to bring your own food or snacks.
- Bring your own 10x10 pop up cover if you choose, as the clubhouse will probably have limited access as stated above, except for restroom access. If inclement or sunny weather you may want cover beyond the single outside pavilion or the shaded areas.

Call 269-483-6803 with any questions or for an update on our status.
